

Promotap

A reliable coir mat

Type	Use	Traffic	Mat Matrix
Scraping	Indoor	Medium	B

Promotap is a wear-resistant, coir mat for small entrance areas with low traffic. A high-quality, robust mat, it scrapes dirt and can absorb a lot of moisture. The PVC backing protects the underlying floor. Available in the classic, dark, coir colour.

Design

Promotap has the classic look of coir, with a somewhat looser texture. This 'straightforward' mat displays the natural colour variations that are unique to the material used. With their familiar texture, coir mats generally combine well with both traditional and modern interiors.

Matching all floors

Our designers develop colourways that complement every interior style. For ambiances ranging from classic to modern design. The broad Rinos range always has the right solution, to complement both interior design and floor type. **Make your own combination on our website and be inspired by our options.**
